In several lowa countries men whose great grandfathers were sawyers and lumbermen are back at the old trade again. But this time Iowa's woodlands are not being cut out for steamboat firewood and industrial construction; they're providing needed lumber for aircraft, boats and guns; and sawdust, by the carloads, for conversion into explosives. And in one other very important respect today's picture of timber production in Iowa should differ from that of a century ago. Then, there was little or no thought for the future. The cutting of Iowa's rich, top-grade virgin timber stands was carried on recklessly in a truly high, wide and handsome way. Today, however, there seems to be some appreciation of the future and of the value of good forest practices. It is reported that a lot of Iowa farmers are seeing to it that their timber is out right; that their woodlands will never again be recklessly destroyed. They're keeping a close, protective watch on the small trees....they realize, even as they provide mature timber for the war market, that those small trees they re not cutting today may help to stabilize the rural economy of Iowa in the post-war period still to come. So, to you farm woodsmen of lowa, Uncle Sam's Forest Rangers say "Good work!" ... Now to the Pine Cone National Forest where, as you know, Ranger Jim Robbins and his assistant, Jerry Quick, often find themselves confronted with the forestry problems of their local farmers and neighbors. Well, we join our two friends at the Ranger Station this morning just as the (FADE) telephone starts to ring

What the dickens was he talking JERRY: 13. about? 14. I don't know, Jerry. I don't know. I haven't had a call like JIM: 15. that since back in the days when the cattlemen and sheepmen 16. were fightin' for the range and they used to threaten to shoot 17. my head off if I showed up at their camps. 18. 19. JERRY: Look, that business about cutting every blamed stick of timber in their woods. That's doggonned serious, Jim. 20. JIM: Yeah, and about their not being patriotic. Why, all those folked 21. down there in the south end of the county have been putting 22. every last inch of their effort into this war. The whole 23. thing doesn't make sense. 24.

| 2. | JERRY: | What was it be sald about Harry Devonshire? Why should those |
|-----|--------|---|
| 2. | | Clearwater people be mad at their county editor? |
| 3. | | Or at you either for that matter? |
| 4. | JIM: | I've been wondering about that, Jerry. Something must've |
| 5. | | happened down there in Clearwater, that they're got Harry and |
| 6. | | me mixed up with. |
| 7. | JERRY: | What're you going to do about it, Jim? Tom Mason said he |
| 8. | | was speaking for everybody down there when he told you to sta |
| 9. | | away. It'd be foolish to buck the whole community, wouldn't |
| 10. | | it? |
| 11. | Jan 3 | Just the same, we gotta go down there and find out what it's |
| 12. | | all about. |
| 13. | JERRY: | Right now? |
| 14. | JIM: | Right new. |
| 15. | JERRY: | But we've got that timber marking job lined up for this |
| 16. | | morning, Jim. We don't want those woodsmen to run out of work |
| 17. | JIM | It won't take us long to run down to Clearwater, and I'm |
| 18. | | thinking it d be better for a crew of woodsmen to run out of woodsmen |
| 19. | | a little while than for some fine woods to be destroyed so that |
| 20. | | there'll be no timber for a lot of work in years to come. Lake |
| 21. | | that's what Mason' figurin' on, I gathered. |

| 12. | JIM: | Huh? Did youdid you say something about the |
| 13. | | government aiming to take over your timber? |
| 14. | JERRY: | That's what he said all right, Jim. Where in the world |
| . 15. | | would he get such a cock-eyed notion as that? |
| 16. | TOM: | Now wait a minute. What're you fellers trying to pull |
| 17. | | off here? Why're you all standing there, lookin' so |
| , 18. | | funny at me? |
| 19. | HARRY: | Well, Tom, we're kinda surprised at what you just said. |
| 20. | | Being the County editor, if there was any move afoot for the |
| . 21. | | government to take over your trees, I'd be one of the first |
| 22. | | to know about it. And this is all news to me, |
| 23. | | |
| , 24. | | |

JIM: Me too, Tom. Where'd you ever get that idea? Al. TOM: Fellers, maybe I am crazy like Jim Robbins suggested 12. earlier today. You mean to say you don't know about that feller going around through Clearwater telling folks he's .4. a government man andsayin' we gotta sell all our timber? 15. And tellin' us the Government's going to take it over any way if we don't sell it to him? .7. JERRY: 18. Somebody's pulling a mean, rotten trick on you folks, Mr. Mason. 9. .10. TOM: Well, this feller's been in here all week signin' our timber up. We figured he was out of your office, Jim. He 111. said he was a government man. 12. 13. JIM: Good gravy, Tom, you shouldn't've been taken in by that. That man's nothing but a crook. 14. 15. TOM: He threatened to use the columns of your paper, Mr. Devonshire. Said he'd show us up as folks who weren't -16. patriotic and didn't want to cooperate with the Covernment --117. 15. that is if we didn't agree to sell our timber to his buyer at a fixed price. .19. 20. HARRY: I get it. That's why you all turned against me, huh? Well, Tom Mason, maybe this isn't so bad after all, all this mess. 21. Yeah. I was thinkin' about that. Tell me, quick, Tom, .22. JIM: 23. how many of you folks have started cutting into your small timber? 24.

| | 1. | TOM: | It all came up this week like I said. Not much work's |
